

Claims for application #10,083,771
Applicant - Huey Thomas Crochet
Examiner - Kurt Rowan
Art Unit 3643

15. I claim a fishing weight comprising,
a smooth, solid, elongated, cylindrical body,
about 24 times longer than wide, made of
a dense malleable material,
said body having
a first end and
a second end and terminating at both ends with,
a hemispheric shape,
said body also having
a hole closely adjacent said first end being attached, loosely
through, by
an O-ring attached to
a swivel such configuring
a line attachment apparatus being
obviously co-operational with, and integrally attached to,
a straight, substantially short, angled portion
means for causing a spin maneuver, by said weight, upon
impact with obstacles while being retrieved,
said short angled portion terminating with said first end
and being defined, from longer straight portion terminating
with said second end, by
a bend along said body.

16. The fishing weight of claim 11 wherein said body is about 6 inches long and .25 inches in diameter.

17. The fishing weight of claim 11 wherein said body is made of metal.

18. The fishing weight of claim 13 wherein said metal is iron.
